Ordering and Warranty 5

General Description

Delta MiniQDS connectors feature the same positive-locking, push-on mating as QDS series connectors, but in a miniature size equivalent to BNC and TNC connectors. Along with the convenience of quick-connect and quick-disconnect mating, MiniQDS connectors exhibit good VSWR to 9 GHz.

Contact factory for other specifications and interface dimensions.

Our MiniQDS series product line is still growing, so please call if you don't see what you need.

Straight Plug—Crimp Type for Flexible Cable

Cable Group	Figure	Dimensions		Plating		Delta P/N	Assembly Procedure/Trim Code
		A	B	Body	Contact		
6	1	1.05	.50	Albaloy*	Gold	4203-015-Q000	B/23

* Crimp sleeve is nickel plated.

Panel Jack Receptacle—Square Flange

Figure 1
(Solder pot contact)

Also available with other contact/insulator configurations and flange sizes

Figure	Dimensions				Mounting Figure	Plating		Delta P/N
	A	B	C	D		Body	Contact	
1	1.06	.63	.062	.090	07	Albaloy	Gold (C)	4213-000-Q071-1

Adapter Between Series

Figure 1
(MiniQDS jack to TNC jack)

Figure	Dimensions		Plating		Delta P/N
	A	B	Body	Contact	
1	1.28	.436	Albaloy	Gold (C)	2234-000-Q001-136

(C) in contact plating column indicates captive contact.

Assembly Procedure

Assembly Procedure B

- 1)** Trim cable per chart. Slide crimp sleeve back onto cable.

- 2)** If support insulator is provided for RG-62 or 71 cable, insert into hollow in dielectric. Solder contact onto center conductor; back of contact flush with trimmed end of cable dielectric (omit this step for right angle connectors with access caps). Flare cut end of braid slightly by rotating dielectric.

- 3)** Insert cable/contact into rear of body, with all braid wires on outside of crimp tail.
- For captive contact connectors, push cable in until contact snaps into insulator.
 - For noncaptive contact connectors, push cable in until cable dielectric bottoms in connector.
 - For right angle or tee connectors with access caps, push cable in until end of braid touches connector body shoulder, and cable center conductor rests in contact slot.

Trim excess braid wires even with shoulder of body. Slide crimp sleeve forward until flush with body and crimp (see page 176 for hex die sizes).

For right angle or tee connectors with access caps, solder center conductor into contact slot, then press cap into body until seated or screw into place.

Trim Code	A	B	C
B/23	.281	.469	.125

Warranty

We warrant our parts to be free from defects in materials and workmanship for one year from date of purchase. During that time, we will repair or replace (at our option) any parts found to be defective.

This warranty does not apply to parts which have been modified, used in conditions exceeding Delta or military specifications, or disassembled. We will not, under any circumstances, be responsible for consequential or incidental damages or installation costs.

No other warranties apply, and no other liability may be assumed or extended by representatives or distributors.

Returns

Returns will be accepted only with a Return Authorization number issued by Delta, and are subject to inspection and acceptance upon arrival. Restocking charges will be determined prior to issuance of Return Authorization.

All claims for shortages must be made within 30 days of receipt by customer.

Ordering Information

Orders are subject to the terms and conditions on our order acknowledgement, which may only be modified by written agreement prior to sale. Order changes, cancellation, or termination will be accepted only with written approval from Delta Electronics Manufacturing.
